Plastination and other services

01.01.2016

Take the facts in own hands – look and see for yourself! (Agassiz). Our plastinates, preparations and embeddings show the real anatomy and make things crystal clear: for the museum visitor, customer, colleague, student and for yourself.

I can offer:

- Sheet plastination (various techniques including the patented Tissue Tracing Technique)
- Corrosion casts (blood vessel casts)
- Silicone figure plastination
- Specimens and exhibitions for rent
- Selective Impregnation, injection and staining techniques
- Embeddings of all items, medical products, memorabilia, etc
- Individual solutions for visualising medical and biological topics
- Anatomical photographs and picture prints, anatomical charts
- Skeletons, individually prepared anatomical models, etc.
- Plastination and preparation service for diagnostic purposes
- Consultation about anatomy, embedding, preparation
- Acrylic awards
- Laser engravings, Acrylic stands for plastinates and embeddings

Prices sheet plastination: the size equivalent is based on the approximate size and the preparation details. It does not tell the exact size of the specimen.

Size equivalent	cm diagonal	Price*
SE 80	80 cm	4.500,00 €
SE 60	65 cm	2.350,00 €
SE 40	50 cm	1.190,00 €
SE 30	35 cm	450,00 €
SE 20	25 cm	159,00 €
SE 15	18 cm	98,50 €

Prices excluding postage and VAT (applies for EU customers without VAT ID Nr.).

* Price for plastinates which you choose individually from available specimens or that are custom-made following your request. Discounts for bulk orders without individual selection of specific specimens and for trial specimens.

You will be impressed by fascinating insights, the beauty and crystal clear transparency of the sheet plastinates. Order trial specimens now and you will hold your plastinate in your own hands, soon.
